## **MAT Pharmacology with a Splash of Kratom**

Presented by

**Mike Leath, MD, RPh**

Dr. Mike Leath has worked at The Prevention and Recovery Center (PaRC) since 2004, starting as a staff physician, then later becoming the Medical Director. He has been with Discovery Behavioral Health since the transition in 2021. Prior to joining the PaRC, he worked in Family and ER medicine.

Dr. Leath attended Texas A&M University, then graduated with a degree in Pharmacy from the University of Houston College of Pharmacy. He attended medical school at the University of Texas Medical Branch in Galveston, TX and did his residency in Family Medicine at Memorial Family Medicine in Houston, TX. He is board certified in both Family and Addiction Medicine.

He has been sober since 2003 and uses his personal knowledge and passion of addiction and recovery to help his patients succeed as they begin their personal journey. In his spare time, Mike enjoys any and everything outdoors, especially hunting, fishing, and spending time with his awesome family.

### **Learning Objectives**

- Understand how psychoactive substances interact with receptors and exert their effect
- Review evidence-based Medication Assisted Treatment (MAT)
- Understand Kratom pharmacology and treatment approaches
